Dear Class,

You should read the fantastic book called Stargirl by Jerry Spinelli. The book is a realistic fiction book about middle school. The characters' names are Leo and Kevin. Leo and Kevin are friends that like most of the same things and together make a television show called Hotseat! Then a girl comes and is new to the school and Leo is the only one that hasn't seen her or knows her name! Later in a class he hears the name Stargirl. At lunch he sees her and she sits alone. After she finishes eating she walks around tables and stops and stares at Leo. He gets scared, but then she walks on and stops at someone else and plays Happy Birthday to the student on her ukulele. The student's face turns red. Everyone thinks Stargirl is different and they have their own theories. You need to read the rest of the book to know what happens! So go to a local library today and get the book Stargirl.

Sincerely,

Aiden

Dear boys and girls who like dinosaurs,

I am reading the book Dinosaurs. Girls who don't like dinosaurs close your ears. Did you know that dinosaurs have lived on Earth for 200 million years? Well they have and also a volosiraptor can tear you apart in about 30 seconds. Also the chicken is the cousin to a tyranisaurus rex. Freaky right? Well a microrapter is a cannibal. A cannibal is an animal that eats its own race of species. Sharks, alligators, crocodiles, and horseshoe crabs were all alive during the dinosaur time. A dinochus was a herd killing dinosaur. If dinosaurs weren't here the world wouldn't be the same.

Dear Classmates,

Dragon at the Red Dawn is a good book because Jack and Annie go to a wonderful place in Japan. In 1676 the whole entire city was burned down. After a couple of years they rebuild the whole city, it was beautiful. Jack and Annie need to be careful though because in Japan there are a lot of samurais. If you don't have passports they will say you are spies and you will be punished. You will enjoy this book.

Dear Class,

I am currently reading the Harry Potter series by J.K Rowling. It's a really good book. Sometimes it's scary or funny, but once you pick up the book you will know it's a good book. This book has giants, centaurs, goblins, dragons, and so much more!!! This boy, Harry Potter, has survived the killing curse cast by the most powerful wizard, Lord Voldomart, when no other wizard has. His parents died because Lord Voldomart killed them. They died when he was one year old. He was forced to live with his only living relatives, his uncle, aunt, and cousin, the Dursleys. They treat him terrible. They don't even acknowledge that he is there most of the time. They treat him like their own servant. I won't tell you anymore because you should read the book series, Harry Potter by J.K Rowling.

Sincerely,
Erin A.

Dear Class,

Magic Tree House #29 Christmas in Camelot by Mary Pope Osborne is a really great book of Jack and Annie. Once you read it, you get stuck with it. Kids should read it on Christmas. The cover may not look good but inside you can imagine about it in your head. It can take a long time so people can read it on Christmas break. Christmas in Camelot is a sad story because all the joy, laughter, and music are taken from Camelot. This is an excellent book.

Sincerely,

Dear Class,

Do you like humor that is extremely funny? Then you are the person to read this book. Do you like books written by Dav Pilkey? Than this is the book for you. I am reading a book called Captain Underpants and the Invasion of the Incredibly Naughty Cafeteria Ladies from Outer Space {and the subsequent assault of the equally evil lunch room zombie nerds}. So far the book is really funny. It's about two kids named George and Harold. They go to elementary school. They like to change signs. They are really good at being funny and they make people laugh. When they get people to laugh they sometimes get into trouble. They have a mean principal named Mr.Krupp. He does not like kids. One day they went to school and they didn't even notice that there was a spaceship on the roof of the school. In the space ship were aliens that looked really weird. When they went in to the school they were sitting down in there science room and they were making funny noises until the teacher was ready. When the teacher was ready they started. The teacher was showing the class an experiment and the class thought that it was boring. When the experiment was done, they were surprised at how the experiment went because most of the time they would think that the experiments were boring and now they were excited. That was all that I have read so far. The reason why you should read this book is because I think that you will enjoy it very much. I think that this book is really funny. Just a suggestion!

Sincerely,
Veronica

Dear Friends,

I'm reading Harry Potter and the Sorcerer's Stone by J.K Rowling. It is very exciting and I think you should read it. At first, Harry thought he was a normal boy, but he found out that he was a wizard because Hagrid, the gamekeeper/giant, told him. Harry went to the wizard academy, Hogwarts, and made many friends, but you'll have to read the book to find out more. He has many adventures like going school shopping in Diagon Alley, but again, you'll have to read the book to find out more. If you don't want to be left in suspense, read Harry Potter and the Sorcerer's Stone.
